1. Overview of Pricing Structure

NovaTech Solutions prices its products on a **per-user, per-month** basis, billed either monthly or annually. Pricing varies by product, edition (Starter, Professional, Enterprise), and billing frequency. Annual billing carries a discount relative to monthly billing across all products and editions.

All prices listed in this guide are quoted in **US Dollars (USD)** and represent standard list pricing for organizations located in the United States. Customers billed in other currencies (EUR, GBP, AUD, CAD, BRL, JPY, INR) will see equivalent local pricing at checkout, which may differ slightly from a direct currency conversion due to regional pricing adjustments and local tax handling.

Note: Pricing in this document reflects rates effective as of the Last Updated date above. NovaTech Solutions reserves the right to adjust pricing with 30 days' advance notice to

existing customers. Price changes do not take effect mid-term for customers on an active annual contract; changes apply at the next renewal.

2. Monthly Pricing by Product

Prices below are per user, per month, billed monthly.

Product	Starter	Professional	Enterprise
NovaTech CRM	\$18	\$42	\$78
NovaTech Projects	\$12	\$29	\$59
NovaTech Connect	\$8	\$19	\$39
NovaTech Insights	\$25	\$55	\$99
NovaTech Helpdesk	\$15	\$35	\$69

Note: Enterprise pricing shown above is a starting reference point. Actual Enterprise pricing is typically negotiated based on seat count, contract length, and required customizations (see Section 5).

2.1 Viewer Seats

Projects and Insights support discounted **Viewer** seats for users who need read-only access to dashboards and project views but do not create or edit content.

Product	Viewer Seat (Monthly)
NovaTech Projects	\$5
NovaTech Insights	\$8

Note: Viewer seats are available on all editions but are most commonly used on Professional and Enterprise accounts with large stakeholder audiences.

3. Annual Pricing by Product

Annual billing is discounted approximately **17%** relative to monthly billing (equivalent to two free months per year), and is billed as a single upfront annual payment per seat, or consolidated for the full organization.

Prices below are per user, per month, but billed annually in one upfront payment.

Product	Starter	Professional	Enterprise
NovaTech CRM	\$15	\$35	\$65
NovaTech Projects	\$10	\$24	\$49
NovaTech Connect	\$7	\$16	\$32
NovaTech Insights	\$21	\$46	\$82
NovaTech Helpdesk	\$12	\$29	\$57

Example: An organization purchasing 20 seats of NovaTech CRM Professional on annual billing would pay $20 \times \$35 \times 12 = \$8,400$ for the year, versus $20 \times \$42 \times 12 = \$10,080$ if billed monthly — a savings of \$1,680 annually.

4. Suite Bundle Pricing

Organizations purchasing **three or more NovaTech products** under a single account qualify for Suite Bundle Pricing, applied automatically at checkout or by an account representative for negotiated deals.

Number of Products Bundled	Discount Applied to Combined List Price
2 products	8%
3 products	15%
4 products	22%
5 products (Full Suite)	30%

Note: Bundle discounts apply on top of annual billing discounts. A customer purchasing the Full Suite on annual billing receives both the annual discount (applied per product) and the 30% bundle discount (applied to the combined total).

Tip: Suite Bundle accounts must maintain the same edition tier across all bundled products by default (e.g., all Professional). Customers who need a higher tier on one specific product (for example, Helpdesk Enterprise while the rest of the suite remains Professional) can request a **Mixed-Tier Bundle**, which recalculates the bundle discount proportionally and typically results in a 3–5 percentage point reduction in the overall bundle discount.

5. Enterprise Pricing

Enterprise pricing is not fixed list pricing and is instead negotiated based on the following factors:

- Total seat count across all purchased products
- Contract length (1-year, 2-year, or 3-year terms available)
- Required data residency (US, EU, APAC, or custom)
- On-premises deployment (if applicable, minimum 500 seats)
- Custom SLA terms beyond the standard 99.95% uptime commitment
- Dedicated Customer Success Manager staffing ratio
- Custom integration or professional services scope

5.1 Enterprise Pricing Process

1. Customer or prospect contacts an Enterprise Account Executive or requests a quote through the NovaTech Sales portal.
2. NovaTech conducts a needs assessment call to determine seat count, products required, and technical requirements.
3. A formal quote is issued, typically valid for 30 days.
4. Legal and security review (if required) is conducted in parallel with commercial negotiation.
5. A Master Services Agreement (MSA) and Order Form are executed.
6. Implementation kickoff is scheduled, typically within 10 business days of signature.

Note: Multi-year Enterprise contracts (2-year or 3-year terms) typically receive an additional 5-10% discount beyond standard annual Enterprise pricing, in exchange for a committed term with early termination provisions.

6. Add-Ons and Optional Modules

The following add-ons are available across eligible products regardless of edition, unless otherwise noted.

Add-On	Applicable Products	Price
NovaTech Identity (SSO/SCIM) standalone	Any single product without Suite Bundle	\$4/user/month
Additional API Rate Limit Tier	CRM, Projects, Helpdesk (Professional+)	\$200/month per +5,000 requests/hour
Extended Data Retention (beyond edition default)	Connect, Insights	\$3/user/month
Premium Onboarding Package	Any product	\$2,500-\$15,000 one-time, scoped by complexity
Additional Storage Block (per 100 GB)	Connect, Helpdesk	\$50/month
Dedicated Customer Success Manager (below Enterprise threshold)	Any Professional-tier account with 50+ seats	\$1,200/month

7. Billing Cycles

- **Monthly billing** renews automatically on the same calendar day each month as the original purchase date. If a customer purchases on the 31st of a month, and a subsequent month does not contain a 31st day, billing occurs on the last day of that month instead.
- **Annual billing** renews automatically on the anniversary of the original purchase date, unless the customer has enabled auto-renewal opt-out (see Section 12).
- Mid-cycle seat additions are billed on a **prorated basis**, calculated from the date of addition through the end of the current billing cycle.
- Mid-cycle seat removals do **not** generate a prorated credit; removed seats remain billable through the end of the current billing cycle, after which they are excluded from the next invoice.

Example: An organization on annual billing adds 5 new CRM Professional seats 90 days into a 365-day billing cycle. The customer is charged a prorated amount for the remaining 275 days of that cycle for the 5 new seats, and all seats renew together at the next annual anniversary.

8. Payment Methods

NovaTech Solutions accepts the following payment methods, which may vary slightly by region:

Payment Method	Availability
Credit Card (Visa, Mastercard, American Express, Discover)	All regions
ACH / Direct Debit	United States only
SEPA Direct Debit	European Union only
Wire Transfer	Enterprise accounts only, minimum annual contract value of \$10,000
Purchase Order (Net 30)	Enterprise accounts only, subject to credit approval

Warning: Starter and Professional edition accounts must be paid via credit card or regionally available direct debit. Wire transfer and Purchase Order terms are not available below Enterprise-level contract value, regardless of seat count.

Failed payments on credit-card-based accounts trigger three automated retry attempts over a 7-day period. If all retries fail, the account enters a **Grace Period** (see Section 11.3).

9. Taxes

- Pricing displayed at checkout is exclusive of applicable taxes unless otherwise stated for a specific region.
- Sales tax, VAT, or GST is calculated based on the billing address provided by the customer and applied at invoice time.
- Customers with valid tax-exemption certificates (for example, registered nonprofit organizations) may submit documentation to NovaTech Billing Support for review; approved exemptions are applied to future invoices and are not retroactive.
- VAT-registered customers in the European Union may submit a valid VAT number during checkout to apply reverse-charge treatment, where applicable under local law.

10. Upgrade Policy

- Edition upgrades (e.g., Starter to Professional) can be self-served at any time through the Admin Console for Starter and Professional accounts.
- Upgrades take effect **immediately**, and the customer is charged a prorated difference for the remainder of the current billing cycle.

- Upgrading from Professional to Enterprise requires contact with an Account Executive, as Enterprise pricing is negotiated rather than list-priced (see Section 5).
 - Product additions (e.g., adding NovaTech Helpdesk to an account that only has NovaTech CRM) follow the same immediate-effect, prorated-billing model as edition upgrades.
 - Upgrading mid-cycle does not reset the billing anniversary date; the new pricing simply applies going forward from the upgrade date at the existing renewal date.
-

11. Downgrade Policy

- Edition downgrades can be self-served through the Admin Console but **take effect at the start of the next billing cycle**, not immediately. This prevents customers from losing access to features they have already paid for within the current cycle.
- No prorated refund is issued for the unused portion of a higher-tier edition when downgrading.
- Downgrading from Enterprise to Professional or Starter requires a 30-day advance notice window and coordination with the account's Customer Success Manager, due to the need to review any Enterprise-exclusive configurations (SSO/SCIM, custom SLAs, data residency agreements) that may be affected.
- As noted in the Product Catalog (Document 1, Section 13 FAQ), data associated with features exclusive to a higher tier is archived (not deleted) for 90 days following a downgrade, in case of re-upgrade.

11.1 Seat Reduction (Without Edition Change)

- Reducing the number of purchased seats (without changing edition) can be done at any time but takes effect at the next renewal, consistent with the proration rules in Section 7.

11.2 Involuntary Downgrade

NovaTech Solutions may downgrade an account involuntarily under the following circumstances:

- Extended payment failure beyond the Grace Period (see 11.3)
- Confirmed violation of the Acceptable Use Policy affecting service integrity for other customers
- Expiration of a negotiated Enterprise contract without renewal, in which case the account reverts to standard Professional-tier list pricing unless otherwise arranged

11.3 Grace Period for Payment Failure

Following a failed payment and exhausted retry attempts (see Section 8), an account enters a 14-day Grace Period during which:

- Full product access remains available.
 - The account administrator receives daily email notifications.
 - If payment is not resolved within the Grace Period, the account is automatically downgraded to a read-only state, during which existing data remains accessible for viewing and export, but editing and new record creation are disabled.
 - Accounts remaining unpaid for 90 consecutive days from the original failure date are subject to account suspension and eventual data deletion per the Privacy and Security Policy (Document 10).
-

12. Cancellation Policy

- Customers may cancel a subscription at any time through the Admin Console under **Billing Settings > Cancel Subscription**, or by contacting Billing Support.
- **Monthly subscriptions** remain active through the end of the current paid month; no partial-month refund is issued.
- **Annual subscriptions** remain active through the end of the current paid year; NovaTech Solutions does not provide prorated refunds for early cancellation of annual plans except under the conditions described in Section 13 (Refund Conditions).
- Auto-renewal can be disabled independently of cancellation, allowing a customer to continue using the current paid term while ensuring the subscription does not renew automatically at term end.
- Enterprise accounts under a Master Services Agreement follow the termination clauses defined in their specific MSA, which may include notice periods of 30, 60, or 90 days depending on contract terms.

Note: Canceling a subscription does not immediately delete customer data. Data is retained in a read-only, exportable state for 30 days following the effective cancellation date, after which it is permanently deleted in accordance with the data retention schedule in the Privacy and Security Policy (Document 10).

13. Refund Conditions

NovaTech Solutions evaluates refund requests under the following standard conditions:

Scenario	Refund Eligibility
Cancellation within 14 days of initial purchase (first-time customers only)	Full refund, no questions asked
Cancellation within 14 days of initial purchase (renewal of existing subscription)	Not eligible; renewal charges are considered accepted upon renewal date
Annual plan canceled after 14-day window, before term end	Not eligible for prorated refund, except at NovaTech's discretion for documented service failures
Confirmed extended outage affecting SLA commitment	Service credit issued per SLA terms (see Warranty and Service Policy, Document 6); not a cash refund
Duplicate or erroneous billing charge	Full refund of the erroneous charge, processed within 5-10 business days
Enterprise contract early termination	Governed by MSA terms; may involve negotiated partial refund or termination fee

Warning: Refund requests made after the applicable eligibility window are reviewed on a case-by-case basis by Billing Support and are not guaranteed. Chargebacks filed with a card issuer without first contacting NovaTech Billing Support may result in immediate account suspension pending resolution.

Refunds, when approved, are issued to the original payment method. Processing time is typically 5-10 business days but may extend to 15 business days for wire transfer reversals.

14. Free Trials

- All products offer a **14-day free trial** at the Professional edition feature level, regardless of which edition the customer ultimately intends to purchase.
- Free trials require a credit card only for Enterprise trial requests (which are typically managed through a sales representative); Starter and Professional self-service trials do not require payment information upfront.
- At the end of the trial period, self-service trial accounts (that did not provide payment information) are automatically converted to a **read-only expired state**; no data is lost, and the customer can convert to a paid subscription at any time to restore full access.
- Trial accounts that provided payment information convert automatically to a paid Professional subscription at the end of the 14-day period unless canceled beforehand.
- Trial extensions of up to 14 additional days may be granted by Sales or Customer Success for accounts actively engaged in an evaluation process.

15. Frequently Asked Questions

Q: Can I switch from monthly to annual billing mid-cycle? A: Yes. Switching to annual billing can be done at any time through the Admin Console. The remaining monthly commitment is honored through its current cycle, and annual billing begins at the next renewal date, or immediately if the customer opts to pay the annual amount upfront and receive credit for the unused monthly period.

Q: Do Viewer seats count toward Suite Bundle eligibility? A: No. Suite Bundle eligibility and discount tiers are based on the number of distinct products purchased, not the number or type of seats within each product.

Q: If I cancel one product in a Suite Bundle, do I lose the bundle discount on the remaining products? A: Yes. Dropping below the three-product threshold recalculates pricing at the next renewal based on the new product count and corresponding discount tier (or standalone pricing if only one or two products remain).

Q: Is there a discount for nonprofit or educational organizations? A: Yes. Verified nonprofit and accredited educational institutions receive a standard 20% discount on Professional and Enterprise editions across all products. Contact Billing Support with organizational verification documents to apply.

Q: What happens to unused seats I've already paid for on an annual plan? A: Unused seats remain available for assignment at any time during the paid term. NovaTech does not issue partial refunds for seats purchased but not actively assigned to a user.

Q: Can I get an invoice instead of being charged automatically by credit card? A: Invoice-based billing (Purchase Order / Net 30) is available only for Enterprise accounts meeting the minimum annual contract value described in Section 8.

Q: Does the price per seat decrease as I add more seats? A: NovaTech does not offer standard volume discounts below the Enterprise tier. Enterprise pricing negotiations do typically factor in total seat count as one of several variables (see Section 5).

Q: What currency will I be billed in if my company operates in multiple countries? A: Billing currency is determined by the billing address on the primary account. Multi-entity organizations requiring billing in multiple currencies should contact an Enterprise Account Executive to establish separate sub-accounts or a consolidated multi-currency Enterprise agreement.

Q: Will I be notified before my annual subscription renews? A: Yes. Automated renewal reminder emails are sent 30 days and 7 days prior to the renewal date for all annual subscriptions.

16. Summary

NovaTech Solutions prices its five core products on a per-user, per-month basis across Starter, Professional, and Enterprise editions, with discounts available for annual billing (approximately 17%) and for Suite Bundles of three or more products (15-30%). Enterprise pricing is individually negotiated. Upgrades take effect immediately with prorated billing, while downgrades and cancellations take effect at the next billing cycle to protect already-paid access. Refunds are generally limited to a 14-day window for first-time purchases, billing errors, or documented SLA failures. This guide should be read alongside the Product Catalog (Document 1) and Warranty and Service Policy (Document 6) for a complete understanding of commercial terms.
